JOURNALS IN CRITICAL CARE EMERGENCY MEDICINE

Pediatric Emergency Care®

Editors: Gary R. Fleisher, MD & Stephen Ludwig, MD
Published monthly
ISSN: 0749-5161

Pediatric Emergency Care® presents practical information for emergency physicians, paediatricians, and allied health professionals who provide care for acutely ill or injured children and adolescents. Every issue addresses the most immediate acute care management problems, with articles on topics such as pediatric airway management, acute trauma, sharp object ingestion, and toxicology. pec-online.com

0.803*

Shock®

Official Journal of The Shock Society, The European Shock Society, The Indonesian Shock Society, The International Federation of Shock Societies, The Official and International Journal of the Japan Shock Society

Editor: Irshad H. Chaudry, PhD
Published monthly
ISSN: 1073-2322

SHOCK® is dedicated to meeting the present and future information needs of investigators involved in basic and clinical studies of shock, trauma, sepsis, endotoxemia, ischemia/reperfusion, inflammation, and other related pathophysiologic states. It is the only journal exclusively devoted to the etiology, cellular/molecular mechanisms, and therapeutic approaches to shock, while also maintaining a clear focus on pathobiology. Ranked 6th in Critical Care Medicine category, 2009 *Journal Citation Reports*® (Thomson Reuters, 2010). shockjournal.org

Impact Factor:
3.203*

Stroke

A Journal of the American Heart Association/American Stroke Association

Editor-in-Chief: Marc Fisher, MD
Published monthly
ISSN: 0039-2499

Each monthly issue of *Stroke* represents the best in the field—original contributions, research letters, case reports, short communications, advances, comments, opinions, reviews, controversies, emerging therapies, topical reviews, and Cochrane Corner. stroke.ahajournals.org

Impact Factor:
5.756*

Critical Care Medicine

Official Journal of the Society of Critical Care Medicine

Editor: Joseph E. Parrillo, MD
Published monthly
ISSN: 0090-3493

A single source for multidisciplinary coverage of all aspects of acute and emergency care, *Critical Care Medicine* provides quick access to the latest news about advances in equipment as well as diagnostic and therapeutic techniques. Each issue publishes promising research and reports on clinical breakthroughs that lead to better care of patients in life-threatening situations. ccmjournal.com

Impact Factor:
6.254*

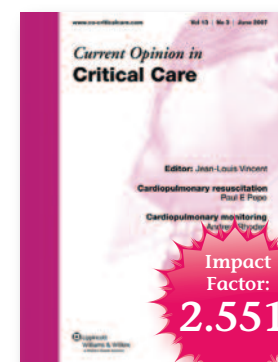

Pediatric Critical Care Medicine

Official Journal of the Society of Critical Care Medicine, The World Federation of Pediatric Intensive and Critical Care Societies, The Paediatric Intensive Care Society UK, The Latin American Society of Pediatric Intensive Care, and The Japanese Society of Pediatric Intensive and Critical Care

Editor: Patrick M. Kochanek, MD, FCCM
Published bimonthly
ISSN: 1529-7535

This journal is the first and only scientific, peer-reviewed publication to focus exclusively on pediatric critical care medicine and critical care neonatology. *Pediatric Critical Care Medicine* is written for the entire critical care team: pediatricians, neonatologists, respiratory therapists, nurses, and others who deal with pediatric patients who are critically ill or injured. Each issue is international in scope, with editorial board members and contributors from around the world. It offers a full range of scientific content, including clinical papers, scientific investigations, solicited reviews, and abstracts from pediatric critical care meetings. pccmjournal.com

Impact Factor:
2.672*

Current Opinion in Critical Care

Editor: Jean-Louis Vincent, MD, PhD
Published bimonthly
ISSN: 1070-5295

This journal provides a powerful, broad-based perspective on the most important advances from worldwide literature. Featuring renowned guest editors and focusing exclusively on one to three topics, every issue delivers expert assessments of developments from the previous year. Insightful editorials and invited reviews cover key subjects such as the respiratory system; neuroscience; cardiopulmonary resuscitation; the surgical patient; trauma; and infectious diseases. All reviews are supplemented with an indispensable section, "References and Recommended Reading." At the back of each volume is "Current World Literature," an exceptionally thorough bibliography taken from the top 100 journals in the field. co-criticalcare.com

JOURNALS IN CRITICAL CARE EMERGENCY MEDICINE

NOW IN PUBMED!

Circulation: Arrhythmia and Electrophysiology

Journal of the American Heart Association

Editor: William G. Stevenson, MD
Published bimonthly
Print ISSN: 1941-3149

This journal reflects the rapid evolution of cardiac electrophysiology as a discipline in its own right and presents critical, new research relevant to clinical application articles focusing on advances in the understanding of the pathophysiology, diagnosis, and treatment of cardiac arrhythmias. circep.ahajournals.org

ACCEPTED ON JCR

European Journal of Emergency Medicine

Official Journal of the European Society for Emergency Medicine

Editor: Colin Graham
Published bimonthly
ISSN: 0969-9546

Each issue addresses issues on the organization of emergency services in hospitals and in the community and examines postgraduate training from a European perspective. It also deals with the application of existing knowledge and skills required by the system approach to the delivery of emergency care. With a multidisciplinary approach, it publishes scientific research, reviews, news of meetings and events of interest to the emergency medicine community. euro-emergencymed.com
