Clinical Nutrition Insight

Editor: Kevin Lomangino
Published monthly
ISSN: 1938-8640

Clinical Nutrition Insight is a convenient way to stay abreast of the latest developments in nutritional research, recommendations, and guidelines affecting every type of patient. With the active participation of an editorial board of respected nutritionists, this monthly newsletter delivers the information nutrition professionals need in a convenient format. Each issue provides concise, authoritative, and accurate articles designed to deal with nutritional problems encountered every day. The newsletter also includes convenient charts, patient handouts, and suggested readings, and offers continuing education credits.

Current Opinion in Clinical Nutrition and Metabolic Care

Editors: Yvon A. Carpentier & Luc A. Cynober
Published bimonthly
ISSN: 1363-1950

This journal provides a powerful, broad-based perspective on the most important advances from worldwide literature. Featuring renowned guest editors and focusing exclusively on one or two topics, every issue of *Current Opinion in Clinical Nutrition and Metabolic Care* delivers unvarnished, expert assessments of developments from the previous year. Insightful editorials and on-the-mark invited reviews cover key subjects such as protein metabolism and therapy; nutrition in the intensive care unit; anabolic and catabolic signals; assessment of nutritional status and analytical methods; and nutraceuticals — some 13 items of major relevance. co-clinicalnutrition.com
