

JOURNALS IN **NEUROLOGY**

PUBLISH AHEAD OF PRINT

Otolology & Neurotology
Official Journal of the American Otolological Society, American Neurotology Society, European Academy of Otolology and Neurotology, The Politzer Society, the Japan Otolological Society, and The Korean Otolologic Society

Impact Factor: **2.065***

Editor-in-Chief: John K. Niparko, MD
Published 9 times a year
Print ISSN: 1531-7129

This journal is the only journal focused exclusively on clinical otology and neurotology, publishing original articles relating to both clinical and basic science aspects of otology, neurotology, and skull base surgery. Under the leadership of John K. Niparko, MD and an international editorial board of experts from 26 countries, *Otolology & Neurotology* publishes the most important papers from around the globe. Special features include: imaging case of the month, temporal bone pathology case of the month, a clinical forum to discuss controversial patient management issues, brief communications on emerging technologies and surgical techniques, historical articles, editorials, letters to the editor, and book reviews.

NeuroReport
Rapid Communication of Neuroscience Research

Editor-in-Chief: Giorgio Gabella
Published 18 times a year
ISSN: 0959-4965

Impact Factor: **1.822***

NeuroReport, with its exceptionally fast publication times, is consistently up-to-date with the latest advances in neuroscience research. One of the fastest refy refereed journals, all aspects of sciuroscience are covered by this joustigious journal. *NeuroReport's* siverage is impressive, taking in all aspects of sensory and motor systems, cellular, molecular and developmental neuroscience and behavioural, integrative and clinical neuroscience.

Neurosurgery
Official Journal of the Congress of Neurological Surgeons

Editor: Nelson M. Oyesiku, MD, PhD
Published monthly
ISSN: 0148-396X

The fastest growing journal in the field, *Neurosurgery* has earned a worldwide reputation for complete, reliable coverage delivered with a fresh, dynamic outlook. The journal attracts contributions to bring neurosurgeons the latest information on innovative surgical techniques and advances in instrumentation.

Neurosurgery can offer you more than 20 years of Journal content online. neurosurgery-online.com

Impact Factor: **3.298***

Neurosurgery Quarterly

Editor: Donlin M. Long, MD, PHD
Published quarterly
ISSN: 1050-6438

The broad wealth of material on international developments in the diagnosis, management and surgical treatment of neurological disorders is clearly synthesised in *Neurosurgery Quarterly*. Coverage includes in-depth reviews of new surgical techniques, emerging areas of surgical applications and advances in equipment and instrumentation. Other regular features include controversies in neurosurgery, and neurosurgical case studies.

Neurology
The Official Journal of the American Academy of Neurology

Editor-in-Chief: Robert A. Gross, MD, PhD, FAAN
Published 48 times a year
ISSN: 0028-3878

Impact Factor: **8.01***

The #1 most-cited neurology journal worldwide (2009 *Journal Citation Reports*®), *Neurology* is directed to physicians concerned with diseases and conditions of the nervous system. It continues to advance the field by presenting new basic and clinical research emphasizing knowledge that will influence the way neurology is practiced.

The journal delivers expedited articles of high scientific interest, as well as original articles, brief communications, and selected videos. *Neurology* features a user-friendly design, and weekly publication to help practitioners stay absolutely current in the field. neurology.org

Facts and Features

- The most-cited neurology journal worldwide*
- Advanced website functionality and mobile device download link
- Expedited articles of high scientific interest
- Neuroimages and select online videos
- Weekly podcasts
- Resident education pieces

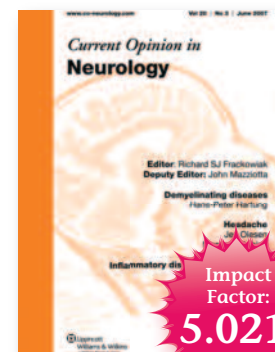

CONTINUUM: Lifelong Learning in Neurology®
The Official CME Journal of the American Academy of Neurology

Editor: Aaron E. Miller, MD
Published bimonthly
ISSN: 1080-2371

CONTINUUM allows you the freedom to learn at your own pace and on your own schedule, while earning up to 60 CME credits a year. Six times a year, you will receive ACCME-accredited self-study

materials that reflect key clinical and scientific developments in neurology. Topics include multiple sclerosis, epilepsy, dementia, headache, movement disorders, sleep disorders, and other essential areas of the field. Your subscription includes print and online access, including online CME exams and credit.

Current Opinion in Neurology

Editors: Richard S. Frackowiak & John Mazziotta
Published bimonthly
ISSN: 1350-7540

Impact Factor: **5.021***

This reader-friendly, bimonthly resource provides a powerful, broad-based perspective on the most important advances from world literature. Featuring renowned guest editors and focusing exclusively on two or three topics, every issue of *Current Opinion in Neurology* delivers unvarnished, expert assessments of developments from the previous year. co-neurology.com

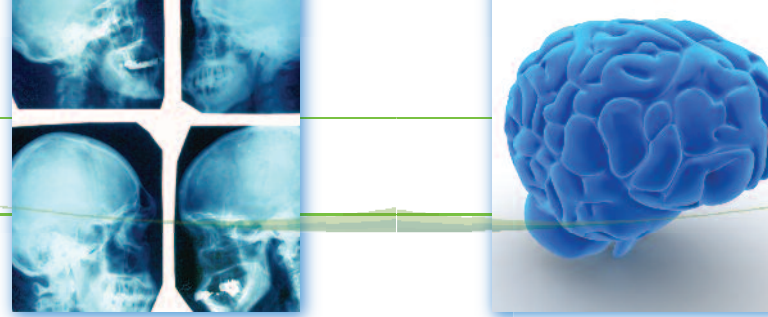

Stroke
A Journal of the American Heart Association/American Stroke Association

Editor-in-Chief: Marc Fisher, MD
Published monthly
ISSN: 0039-2499

Impact Factor: **5.756***

Each monthly issue of *Stroke* represents the best in the field—original contributions, research letters, case reports, short communications, advances, comments, opinions, reviews, controversies, emerging therapies, topical reviews, and Cochrane Corner.
