

# JOURNALS IN ONCOLOGY / HEMATOLOGY

Wolters Kluwer Health | Lippincott Williams & Wilkins

Ranking: 1st for Impact Factor and Total Cites among 61 Hematology Journals\*

## Circulation

Journal of the American Heart Association

Editor-in-Chief:  
Joseph Loscalzo, MD, PhD  
Published 50 times a year  
Print ISSN: 0009-7322

Impact Factor:  
**14.429\***

Written and edited by renowned professionals, each weekly issue of *Circulation* represents the best in the field — a combination of basic science and clinical application that present great ideas, but also explains how to use them effectively in daily practice. Each issue of the European Edition contains the *European Perspectives in Cardiology* section, highlighting the issues, developments and debate involving cardiologists across Europe and beyond. [circ.ahajournals.org](http://circ.ahajournals.org)

Ranking: 3rd for Impact Factor and Total Cites among 61 Hematology Journals\*

## Circulation Research

Journal of the American Heart Association

Editor-in-Chief:  
Roberto Bolli, MD  
Published biweekly  
Print ISSN: 0009-7330

Impact Factor:  
**9.504\***

*Circulation Research* explores some of the most revolutionary research from areas like cellular therapy/stem cells, microRNA biology, development, proteomics, translational research, and more. [circres.ahajournals.org](http://circres.ahajournals.org)

Ranking: 6th for Impact Factor and 4th for Total Cites among 61 Hematology Journals\*

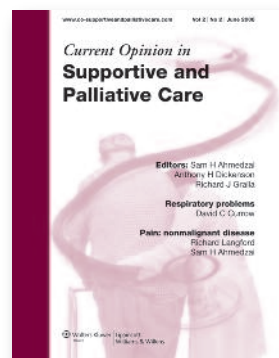

## Arteriosclerosis, Thrombosis, and Vascular Biology

Journal of the American Heart Association

Editor: Mark B. Taubman, MD  
Published monthly  
ISSN: 1079-5642

Impact Factor:  
**7.235\***

The forum for the publication of research on the biology, prevention, and impact of vascular diseases related to arteriosclerosis and thrombosis from a variety of disciplines including biochemistry, biophysics, cell and molecular biology, clinical investigation, epidemiology, genetics, lipoproteins, nutrition, metabolism, and pathology. [atvb.ahajournals.org](http://atvb.ahajournals.org)

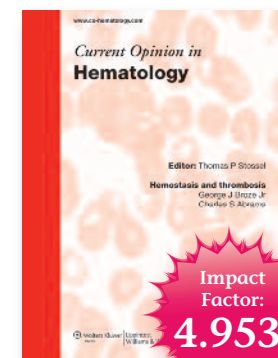

## Current Opinion in Supportive and Palliative Care

Editors: Sam Ahmedzai, Anthony Dickenson & Richard Gralla  
Published quarterly  
ISSN: 1751-4258

*Current Opinion in Supportive and Palliative Care* empowers all those working in the fields of supportive and palliative care to put to good use vital clinical and research advances from throughout the world. The journal's scope is broad and relates to all aspects of palliative medicine that do not directly or exclusively deal with the administration of palliative care or hospice services, or with the primary management of pain and physical symptoms in palliative care. Each issue features guest editors who focus exclusively on topics in their specialty. Editorials and invited reviews bring readers up to speed on key subjects such as pain, gastrointestinal symptoms, psychological and cognitive problems, respiratory, renal problems, bone and haematological problems, end of life management, cardiac and circulatory problems, cachexia, nutrition and hydration, HIV and other infections, quality of life, economics, and ethics. [co-supportiveandpalliativecare.com](http://co-supportiveandpalliativecare.com)

# JOURNALS IN ONCOLOGY / HEMATOLOGY

## Current Opinion in Hematology

Editor: Thomas P. Stossel, MD  
Published bimonthly  
ISSN: 1065-6251

Impact Factor:  
**4.953\***

One of the top ten journals in Hematology, it provides a broad-based perspective on the most important advances in the field. Every issue delivers unvarnished, expert assessments of developments from the previous year. Insightful editorials and on-the-mark invited reviews cover key subjects such as leukocytes; erythrocytes; hematopoietic growth factors; hematological malignancies; hemostasis and thrombosis; transfusion medicine; and hematopoietic stem cell transplantation. [co-hematology.com](http://co-hematology.com)

## Current Opinion in Oncology

Editor: Jean Klastersky, MD  
Published bimonthly  
ISSN: 1040-8746

Impact Factor:  
**4.386\***

Reader-friendly, this journal features renowned guest editors focusing exclusively on two topics per issue. *Current Opinion in Oncology* delivers critical reviews, and expert assessments of the developments from the previous year in all fields of oncology. Insightful editorials and on the mark — invited reviews cover key subjects such as endocrine tumors; melanoma and other skin neoplasms; the genitourinary system; supportive care; cancer in AIDS; and the breast — some 18 or more items in all of major relevance. [co-oncology.com](http://co-oncology.com)

## Journal of Thoracic Oncology

Official Publication of the International Association for the Study of Lung Cancer

Editor: James R. Jett, MD  
Published monthly  
ISSN: 1556-0864

Impact Factor:  
**4.04\***

*Journal of Thoracic Oncology* is the primary educational and informational publication for topics relevant to detection, prevention, diagnosis, and treatment of thoracic malignancies. *Journal of Thoracic Oncology*, emphasizes a multidisciplinary approach, and includes original research, reviews, and opinion pieces. The audience consists of epidemiologists, oncologists, thoracic surgeons, pulmonary specialists, radiologists, pathologists, and research scientists with a special interest in thoracic oncology. [jto.org](http://jto.org)

## The Cancer Journal: The Journal of Principles & Practice of Oncology

Editors: Vincent T. DeVita, MD, Theodore S. Lawrence, MD & Steven A. Rosenberg, MD  
Published bimonthly  
ISSN: 1528-9117

Impact Factor:  
**2.88\***

Updating the renowned oncology textbook, *The Cancer Journal* is your authoritative source for reports of recent advances in the principles and practice of oncology. In addition, the journal publishes theme issues featuring invited reviews, as well as original research, case reports, and more. [journalppo.com](http://journalppo.com)

**Journal of Immunotherapy**  
Official Journal of the  
International Society for  
Biological Therapy of Cancer

Editor: Steven A. Rosenberg, MD  
Published 9 issues per year  
ISSN: 1524-9557

Impact  
Factor:  
**3.593\***

The *Journal of Immunotherapy* publishes basic scientific and clinical studies of the immunologic response to tumors and other diseases. It addresses the latest advances in basic cytokine research; immune regulation; immune response to diseases and associated antigens; growth factors and their receptors; haematopoietic factors; monoclonal antibodies; therapeutic studies in animal models; immunotherapy research, including active immunization and adaptive immunotherapy in animal models and humans; and clinical trials. [immunotherapy-journal.com](http://immunotherapy-journal.com)

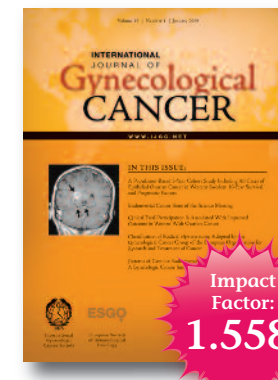

**Anti-Cancer Drugs**  
An International Journal on  
Anti-Cancer Agents

Editor: Mels Sluysen, PhD  
Published 10 issues per year  
ISSN: 0959-4973

Impact  
Factor:  
**2.376\***

*Anti-Cancer Drugs* provides current information on the clinical and experimental effects of toxic and non-toxic cancer agents and is specifically directed towards breakthroughs in cancer treatment. Among the topics included are cytotoxic chemotherapy, hormonal or biological response modifiers such as interleukins, immunotherapy, drug design, adverse effects of drugs and drug resistance. Within the journal, strong emphasis is placed on papers reporting treatments to alleviate the side effects of chemotherapy. [anti-cancerdrugs.com](http://anti-cancerdrugs.com)

**International Journal of Gynecological Cancer**  
Official Journal of the  
International Gynecologic  
Cancer Society and the  
European Society of  
Gynaecological Oncology

Editor-in-Chief: Uziel Beller, MD  
Published 9 issues per year  
ISSN: 1048-891X

Impact  
Factor:  
**1.558\***

The *International Journal of Gynecological Cancer* presents papers from throughout the global community of researchers. Publishing a mix of basic, clinical, and translational studies, the journal's editorial board represents all the major disciplines involved in cancer, including gynecology, oncology, radiation therapy, and pathology. This journal allows you to call on a roster of international experts in order to provide the best treatment for your patients. [ijgc.net](http://ijgc.net)

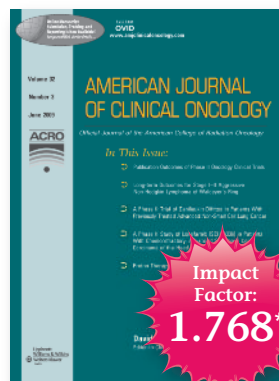

**Melanoma Research**  
A Journal for Basic,  
Translational and Clinical  
Research in Melanoma

Editors: F. J. Lejeune & W. J. Storkus  
Published bimonthly  
ISSN: 0960-8931

Impact  
Factor:  
**2.254\***

*Melanoma Research* encourages an informed and balanced view of experimental and clinical research and aims to extend and stimulate communication and exchange of knowledge between investigators with differing areas of expertise. This will foster the development of translational research. Consequently the scope of the Journal is broad, embracing the entire range of studies from fundamental and applied research in such subject areas as genetics, molecular biology, biochemistry, cell biology, photobiology, pathology, immunology, and advances in clinical oncology influencing the prevention, diagnosis and treatment of melanoma. [melanomaresearch.com](http://melanomaresearch.com)

**American Journal of Clinical Oncology**  
Official publication of  
the American College of  
Radiation Oncology

Editor: David E. Wazer, MD  
Published bimonthly  
ISSN: 0277-3732

Impact  
Factor:  
**1.768\***

The *American Journal of Clinical Oncology* focuses on combined modality, multidisciplinary loco-regional management of cancer. The journal gives emphasis to translational research, outcome studies, and cost utility analyses, and also includes opinion pieces and review articles. [amjclinicaloncology.com](http://amjclinicaloncology.com)

**European Journal of Cancer Prevention**  
Official Journal of the European  
Cancer Prevention Organization  
and The International Association  
of Cancer Registries

Editor: Dr. Jaak Janssens  
Published bimonthly  
ISSN: 0959-8278

Impact  
Factor:  
**2.536\***

The *European Journal of Cancer Prevention* emphasizes the rapid publication of important research into fundamental aspects of cancer prevention, making it essential reading for researchers in a wide variety of fields. The scope is wide ranging, including descriptive and metabolic epidemiology, histopathology, genetics, biochemistry, molecular biology, microbiology, clinical medicine, intervention trials and public education, basic laboratory studies and special group studies. [eurcancerprev.com](http://eurcancerprev.com)

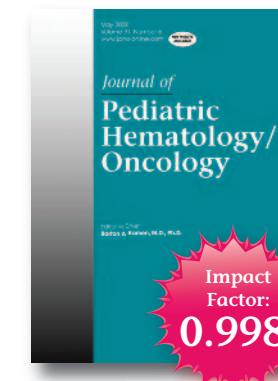

**Blood Coagulation and Fibrinolysis**  
An International Journal in  
Haemostasis and Thrombosis

Editors: Evgueni L. Saenko & R. Marlar  
Published 8 issues per year  
ISSN: 0957-5235

Impact  
Factor:  
**1.408\***

*Blood Coagulation and Fibrinolysis* is one of the major journals in haemostasis and thrombosis research today. The scope of the journal includes blood coagulation, platelets, fibrinolysis, haemophilia, arterial disease and drug effects. Additional new research includes the areas of haemostasis and thrombosis. To meet the demand for the very latest reports and findings, all papers approved by our leading editorial board are published within eight weeks of acceptance. [bloodcoagulation.com](http://bloodcoagulation.com)

**Journal of Pediatric Hematology/Oncology**

Editor: Barton A. Kamen, MD  
Published monthly  
ISSN: 1077-4114

Impact  
Factor:  
**0.998\***

The *Journal of Pediatric Hematology/Oncology* reports on major advances in the diagnosis and treatment of cancer and blood diseases in children. Each issue presents case studies and original research articles from leading clinicians and investigators worldwide. Also featured are specially developed Continuing Seminars, which serve the continuing education needs of physicians by offering new insights into many areas of interest, as well as analyses of radiological problems in pediatric oncology and discussions of pertinent ethical and legal issues.
