Retinal Cases & Brief Reports

Editor-in-Chief: Alexander J. Brucker, MD
Published quarterly
Print ISSN: 1935-1089

This quarterly journal delivers instructive, challenging case reports. Readers are taken from the initial case presentation and work-up, to differential diagnosis and treatment, concluding with post-treatment follow-up. All cases are vividly illustrated. Helping ophthalmologists learn from acknowledged experts, this journal is indispensable for professionals wishing to hone their diagnostic and therapeutic skills. retinalcases.com

Journal of Glaucoma

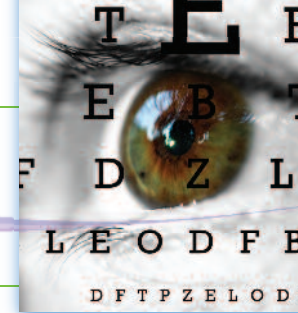

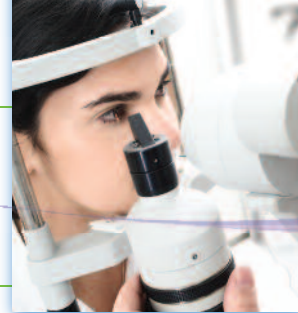

Official Journal of the American Glaucoma Society

Editor: G.A. Cioffi, MD
Published 9 times a year
Print ISSN: 1057-0829

Journal of Glaucoma provides a stimulating forum for the discussion of clinical, scientific, and socio-economic issues of concern to clinicians who care for glaucoma patients. Each issue presents original articles on new approaches to diagnosis, innovations in pharmacological therapy and surgical technique, and basic science advances that affect clinical practice. glaucomajournal.com

Cornea

The Journal of Cornea and External Disease
Sponsored by the Cornea Society

Editor: R. Doyle Stulting, MD, PhD
Published monthly
Print ISSN: 0277-3740

Cornea brings together basic and clinical studies on the cornea and the anterior segment of the eye that are critically important to corneal specialists and all general ophthalmologists. The latest corneal and anterior segment microsurgical procedures are reviewed in depth, and promising new surgical techniques are evaluated. Additionally, *Cornea* is a forum in which leading experts present relevant clinical studies and their conclusions, ultramicroscopic studies of corneal pathology, and clinicopathologic cases. corneajnl.com

Techniques in Ophthalmology

The Journal of Eye Surgery

Editor-in-Chief: Thomas John, MD
Published quarterly
Print ISSN: 1542-1929

Techniques in Ophthalmology provides practical, easy-to-read reviews of current surgical techniques and instrumentation in each of the ophthalmic subspecialties. Each issue of this journal brings you step-by-step guidance on the most effective procedures you can employ in cataract, refractive, corneal, glaucoma, oculoplastic, retinal, and pediatric surgery. techniques-in-ophthalmology.com

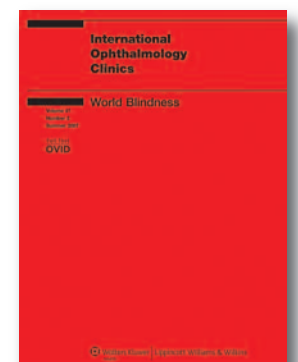

Ophthalmic Plastic and Reconstructive Surgery

Official Publication of The American Society of Ophthalmic Plastic and Reconstructive Surgery

Editor-in-Chief: Jonathan Dutton, MD, PhD
Published bimonthly
Print ISSN: 0740-9303

Ophthalmic Plastic and Reconstructive Surgery features original articles and reviews in aesthetic, plastic, and reconstructive surgery of the face, eyelids, orbits, and lacrimal system. Journal topics include ptosis, eyelid reconstruction, orbital diagnosis and surgery, lacrimal problems, and eyelid malposition. Provocative reappraisals of diagnostic techniques and procedures, medical therapies, and surgical instruments are included, as well as detailed analyses of recent research findings and their clinical applications. op-rs.com

International Ophthalmology Clinics

Editor: Mitchell H. Friedlaender, MD
Published quarterly
Print ISSN: 0020-8167

A valuable resource for medical professionals seeking to stay informed, each hardbound issue of this quarterly publication presents a comprehensive review of a single topic in a new or changing area of ophthalmology. Recent issues have included refractive surgery, pediatric ophthalmology, glaucoma, and age-related macular degeneration. The timely, tightly focused review articles give ophthalmologists the opportunity to benefit from the knowledge of leading experts in this rapidly changing field. internat-ophthalmology.com
