## Ear and Hearing

Official Journal of the American Auditory Society

Editor-in-Chief: Brenda M. Ryals, PhD | Published bimonthly | Print ISSN: 0196-0202

From the basic science of hearing to auditory electrophysiology to amplification and the psychological factors of hearing loss, *Ear and Hearing* covers all aspects of auditory disorders. This multidisciplinary journal consolidates the various factors that contribute to identification, remediation, and audiologic rehabilitation. It is the one journal that serves the diverse interest of all members of this professional community—audiologists, physicians, educators, and students of audiology. The original articles published in the journal focus on assessment, diagnosis, and management of auditory disorders. [ear-hearing.com](http://ear-hearing.com)

## Current Opinion in Otolaryngology & Head and Neck Surgery

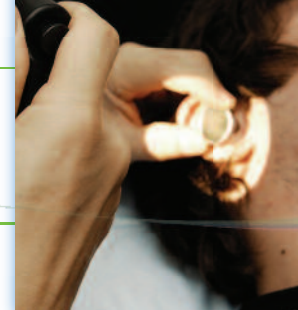

Editors: Paul J. Donald, MD and Patrick J. Bradley, MBA, FRCS | Published bimonthly | Print ISSN: 1068-9508

This reader-friendly, bimonthly resource provides a powerful, broad-based perspective on the most important advances from throughout the world literature. Featuring renowned guest editors and focusing exclusively on one to three topics, every issue delivers unvarnished, expert assessments of developments from the previous year. Insightful editorials and on-the-mark invited reviews cover key subjects such as the nose and paranasal sinuses, head and neck oncology, speech therapy and rehabilitation, facial plastic surgery, audiology, and pediatric otolaryngology. All reviews are supplemented with an indispensable section, *References and Recommended Reading*. At the back of each volume is *Current World Literature*, an exceptionally thorough bibliography culled from several hundred top journals in the field. Both sections are completely annotated and, as an added benefit, appropriate papers are flagged for their special or outstanding interest. [co-otology.com](http://co-otology.com)

## The Hearing Journal

The Journal of Hearing Care and Technology

Published monthly | Print ISSN: 0745-7472

The most widely circulated journal in hearing health care, *The Hearing Journal* informs hearing healthcare providers of the latest developments in an interesting format. This journal includes feature articles on major issues affecting the hearing impaired, technical and investigative reports, and industry news. [thehearingjournal.com](http://thehearingjournal.com)

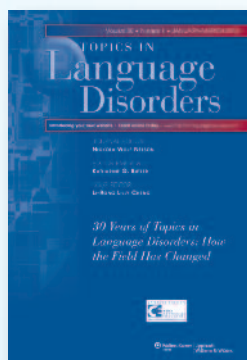

## The Journal of Craniofacial Surgery

An international journal dedicated to the art and science essential to the practice of craniofacial surgery and pediatric plastic surgery

Editor-in-Chief: Mutaz B. Habal, MD, FRCSC | Published bimonthly | Print ISSN: 1049-2275

This journal serves as a forum of communication for all those involved in craniofacial and maxillofacial surgery and pediatric plastic surgery. Coverage ranges from practical aspects of craniofacial surgery to the basic science that underlies surgical practice in this field. *JCS* publishes original articles, scientific reviews, editorials and invited commentary, plus CD-ROM supplements. Select articles from international journals and occasional international bibliographies in craniofacial surgery ensure the journal meets the needs of its entire readership. ## Topics in Language Disorders

Editor: Nickola Wolf Nelson, PhD | Published quarterly | Print ISSN: 1550-3259

This journal is a double-blind peer-reviewed journal that has as its major purposes: (1) bringing together professionals who have a clinical interest in language and its disorders, transcending disciplinary concerns; (2) clarifying the application of theory to practices in the treatment, rehabilitation, and education of individuals with language disorders; and (3) providing relevant information to practicing professionals dealing with the language disabled.
