JOURNALS IN PEDIATRICS

Infants & Young Children

An Interdisciplinary Journal of Early Childhood Intervention

Editor: Mary Beth Bruder, PhD
Published quarterly
Print ISSN: 0896-3746

This journal is a comprehensive interdisciplinary journal devoted to early intervention and clinical management of infants to young children (birth to 5 years of age) with, or at risk for, developmental disabilities. This journal keeps you current on the latest findings on specific disorders, diagnostic methods, and therapies that are improving outcomes for these special needs children and their families. ijcjournal.com

Journal of Pediatric Gastroenterology and Nutrition

Official Journal of the European Society for Paediatric Gastroenterology, Hepatology and Nutrition and the North American Society for Pediatric Gastroenterology, Hepatology and Nutrition

Editors: David Branski, MD & Eric Sibley, MD, PhD
Published 10 issues per year
ISSN: 0277-2116

This journal provides a forum for original papers and reviews dealing with nutrition in normal and abnormal functions of the alimentary tract and its associated organs, including the salivary glands, pancreas, gallbladder and liver. Particular emphasis is on development and its relation to infant and childhood nutrition. Articles are also included on mechanistic issues involved in normal and abnormal physiology of the gastrointestinal tract, as well as on the use of special tools such as endoscopy, liver biopsy, ultrasound and computed tomography in pediatric diagnosis. jpgn.org

CELEBRATING 20 YEARS OF PUBLISHING EXCELLENCE IN 2011

Journal of Pediatric Orthopaedics B

Official Journal of the Pediatric Orthopaedic Society of North America

Editor: Ashok N. Johari, MD
Published bimonthly
ISSN: 1060-152X

Impact Factor: 0.421*

Journal of Pediatric Orthopaedics B highlights important recent pediatric orthopaedic developments from the world's leading clinical and research institutions. It delivers in-depth perspectives on all aspects of pediatric orthopaedic disorders. Regular features include original, peer-reviewed articles; review articles; case reports related to the musculoskeletal system in children, with an emphasis on surgical considerations; new section, current controversies, delves into day-to-day issues concerned with diagnosis, treatment, and management; section of topic-oriented reviews guest edited by a leading pediatric orthopaedist. jpo-b.com

Pediatric Physical Therapy

Official Journal of the Section on Pediatrics of the American Physical Therapy Association

Editor: Ann F. VanSant, PhD
Published quarterly
ISSN: 0898-5669

The first and only peer-reviewed journal devoted entirely to pediatric physical therapy, *Pediatric Physical Therapy* presents articles that address developmental,

orthopedic and respiratory concerns, thoughtful discussions of professional issues, and reports on promising research. Brimming with new insights, innovative techniques and fresh perspectives, this journal keeps readers current in this demanding special field. pedpt.com

The Pediatric Infectious Disease Journal®

An Official Journal of the Pediatric Infectious Disease Society • The European Society for Paediatric Infectious Diseases

Editors: John D. Nelson, MD & George H. McCracken, Jr, MD
Published monthly
ISSN: 0891-3668

The Pediatric Infectious Disease Journal® has the highest impact factor of all pediatric infectious diseases journals — publishing the very latest groundbreaking research in the field. Practicality in both style and content is the hallmark of this journal. It delivers the latest insights on all aspects of infectious diseases in children, from state-of-the-art diagnostic techniques to the most effective drug therapies and other essential treatment protocols. pidj.com

Impact Factor: 3.064*

Journal of Developmental & Behavioral Pediatrics

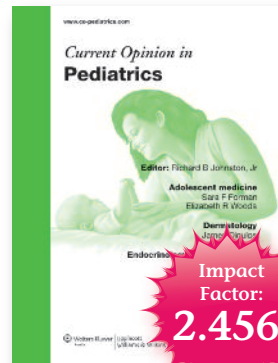

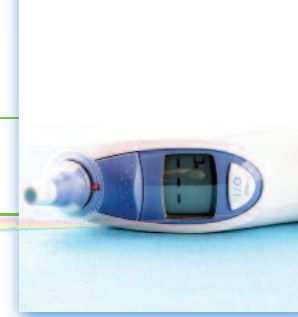

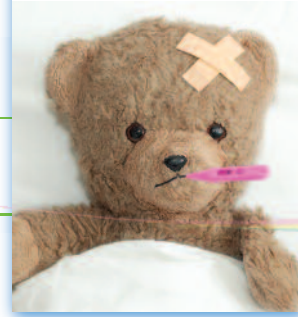

Official Journal of the Society for Developmental and Behavioral Pediatrics

Editor: Suzanne D. Dixon, MD, MPH
Published bimonthly
ISSN: 0196-206X

Physicians, researchers and psychologists alike will find research and clinical material they can use daily. Devoted entirely to the developmental and psychosocial aspects of paediatric health care, every issue brims with reports, commentary, original articles, and reviews - the latest work of many of today's best-known leaders in related fields. Learning disorders, developmental disabilities, and emotional, behavioural, and psychosomatic problems are just a few of the relevant areas covered in the journal. Also included is a time-saving review section that provides ready access to key articles from more than 50 related journals. jdbp.org

Pediatric Research

Official Publication of: **The American Pediatric Society • Society for Pediatric Research • The European Society for Paediatric Research**

Editor-in-Chief: *Sherin U. Devaskar*
European Chief Editor: *Petra S. Hüppi*
Published monthly
ISSN: 0031-3998

Essential reading for research-oriented pediatricians, scientists, faculty, and trainees whose interest is the investigation of developmental phenomena and the etiology of diseases in children. The journal presents the work of leading authorities whose translational research in pediatric investigation covers disciplines extending from molecular biology to epidemiology. Each issue contains approximately 20 original, peer-reviewed articles on late-breaking investigations of the most challenging problems of childhood diseases. Selected by a panel of internationally distinguished physicians and scientists, these studies provide the reader with timely, accurate views of the latest advances in the broad spectrum of pediatric research.

Pediatric Emergency Care®

Editors: *Gary R. Fleisher, MD & Stephen Ludwig, MD*
Published monthly
ISSN: 0749-5161

Brought to you by the pioneers in the field of pediatric emergency medicine, *Pediatric Emergency Care®* presents practical information for emergency physicians, pediatricians, and nurses who provide care for acutely ill or injured children and adolescents. Every issue addresses the most immediate acute care management problems, with articles on topics such as pediatric airway management, acute trauma, sharp object ingestion, and toxicology. Each monthly issue also includes Category 1 CME credits, articles by internationally recognized authors presented on a variety of timely topics, editorials, reviews, illustrative case reports detailing the field's hottest issues, book reviews, meeting abstracts, conference proceedings, and reports on new technologies and techniques. pec-online.com

PUBLISH AHEAD OF PRINT

Clinical Dysmorphology

Editors: *Dian Donnai, Jill Clayton-Smith & Michael Baraitser*
Published quarterly
ISSN: 0962-8827

Clinical Dysmorphology publishes succinct case reports on the etiology, clinical delineation, genetic mapping, and molecular embryology of birth defects. This journal covers such topics as multiple congenital anomaly syndromes — with particular emphasis on previously undescribed conditions, rare findings, ethnic differences in existing syndromes, foetal abnormalities, and cytogenetic aberrations that might give clues to the localization of developmental genes. Regular features include original, peer-reviewed articles, conference reports, book and software reviews, abstracts and summaries from the UK Dysmorphology Club, and literature summaries. clindysmorphol.com

Pediatric Critical Care Medicine

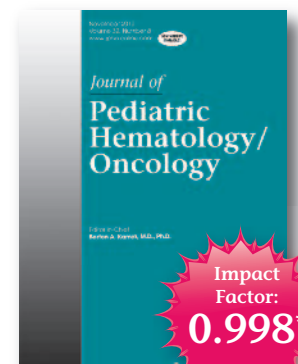

Official Journal of **The Society of Critical Care Medicine • The World Federation of Pediatric Intensive and Critical Care Societies • The Paediatric Intensive Care Society UK • The Latin American Society of Pediatric Intensive Care • Japanese Society of Pediatric Intensive and Critical Care**

Editor: *Patrick M. Kochanek, MD*
Published bimonthly
ISSN: 1529-7535

This journal is the first scientific, peer-reviewed publication to focus exclusively on pediatric critical care medicine and critical care neonatology. *Pediatric Critical Care Medicine* is written for the entire critical care team: pediatricians, neonatologists, respiratory therapists, nurses, pharmacists and others who deal with pediatric patients who are critically ill or injured. The journal also proudly publishes translations of selected abstracts in Chinese, French, Italian, Japanese, Portuguese, and Spanish in every bimonthly issue. The journal is international in scope, with editorial board members and contributors from around the world.
