WKH | LWW has a dedicated, experienced journals team that handles our translation and rights sales. We have a track record of success with a strong international reach of translated and local edition contracts across the journal portfolio.

In general we license editions excerpted from LWW published full titles to appear on a regular publication schedule with an agreed table of contents used being subject to editorial approval of the originating journal. There is opportunity for appropriate sponsorship and local advertising subject to agreement and approvals. We work closely with our Association and Society Partners to license international arrangements which are in line with their individual mission as well as with our in-house editors for our proprietary journals.

If you are interested in publishing a translation/local edition, in the first instance, please request an option on the title(s) for the language/territory you are interested and we will see if it is available to offer to you. Options are generally granted on a 90 day basis.

We have a strong presence at the Frankfurt, London and Beijing International Book Fairs as well as the Online Information show in London and welcome the opportunity to meet with translators and vendors at these and other events throughout the year. Please feel free to contact me in order to arrange appointments to discuss opportunities.

I look forward hearing from you soon.
